ABOUT INSTITUTE:

Trinity College of Engineering & Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. Over the years since it was established, there has been dynamic progress at Trinity in all academic and research activities, and a parallel improvement in facilities and infrastructure, to keep it on par with the best institutions in India.

The Major Objectives of the Entrepreneurship are:

The main objective of the program to provide opportunities to the undergraduate student enrich their Entrepreneur development skills in starting business experts from academia & industry shared their knowledge on the entrepreneurship skills.

Topic covered:

- To make aware /train entrepreneurial culture among people.
- To motivate young person's representing different section of society to concenter entrepreneurship of self employment as one of the carrier options.
- To provide basic entrepreneurship training and aimed at helping entrepreneurship ideas, action bring and attitude behavior change in the target group and bill the personal entrepreneurship skills.

PROGRAMME REPORT

Academic year	2020-2021
Event	One day Seminar on
Organized by	Intellectual property rights cell
Topic	Intellectual property rights (IPR)&Research Ethics
Resource person	M. Anjaiah Asst. Prof, Dept of ECE Mother Theresa College Of Engineering
Date & Time	27-02-2020 & 2:00PM
Venue	Block -I 101 Lab
No. of participants	37

Report on the Event:

- The program started with welcoming the guests and faculty.
- Program was inaugurated with saraswathi vandana and lightening of the lamp by the dignitaries.
- This programme has covered students of Bachelors programme, and faculty of the college.
- A one day Seminar on "IPR & Research Ethics" is focused on different aspects of Intellectual Property Rights (IPRs), Hands on training on patent searching and filling, how institutes and researchers can convert

Outcome of the Event: To make aware about IPR in cyber world.

- To convert the patented works into Commercialization.
- To convert the Project / Research / Innovations into Patents.
- To help researchers and scientists to apply for patents on their own.
- To sensitize teachers and students about plagiarism and research ethics.
- To improve participating institutions CGPA in NAAC and NBA accreditation process.
- To Improve institutional ranking in the National Institutional Ranking Framework.

ABOUT INSTITUTE:

Trinity College of Engineering & Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. Over the years since it was established, there has been dynamic progress at Trinity in all academic and research activities, and a parallel improvement in facilities and infrastructure, to keep it on par with the best institutions in India.

OBJECTIVE OF THE PROGRAMME:

An online shopping system permits a customer to submit online orders for items and/or services from a store. Usually, online shopping products are displayed and maintained on a web portal. A Web Portal is a type of Website. A Web Portal acts as a gateway to the internet. Web portals provide a single point of access to a variety of content and core services, and ideally offer a single sign-on point. The main challenge for online shopping portals is to provide security for the transactions involved. Customers usually need to enter their crucial information such as, credit card number, debit card number etc. to buy products. Today, most of the shopping portals make use of Secured Socket Layer (SSL) to transfer crucial data. Existing system was capable of providing a very good end-to-end security. But, it cannot encrypt only a part of information; hence a large cipher text is generated.

Who can attend?

Students from the Undergraduate, post-graduate, and Faculties of various institutions

ABOUT INSTITUTE:

Trinity College of Engineering & Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. Over the years since it was established, there has been dynamic progress at Trinity in all academic and research activities, and a parallel improvement in facilities and infrastructure, to keep it on par with the best institutions in India.

About the Workshop

The legal basis of IPR and then various forms were discussed. The ethos and process vs. product patents, trades secret protection, designs, copyrights etc.

Problems were discussed the types of patents such as biotech patent, plant patent, utility patent, software patent, business method patent, nano-tech patent, design pattern were elaborated.

The wealth of patents in developed countries like USA, Japan and Europe are projected and compared with Indian status indicating poorness with the wealth of IP in India, a focus of the important of commercialization of patents was projected in engineering and technology

The Major Objectives of the Programme is:

- Students will be able to have an idea on patents in engineering and technology.
- Students will gain knowledge on types of patent, patent rules, various copy rights.

Who can attend?

Students from the Undergraduate, postgraduate, and Faculties of various Institutions.

PROGRAMME REPORT

Academic year	2019-2020
Event	One day Seminar
Organized by	Trinity college of Engineering & Technology
Topic	Role of Intellectual property rights in engineering and technology-trends and developments
Resource person	E. Sandhya Rani Asst. Prof, CSE Dept Nigama Engineering College.
Date & Time	26-11-2019&10:30AM
Venue	Block -I 101 lab
No. of Participants	39

Report on the Event:

- The program started with welcoming the guests and faculty.
- Program was inaugurated with saraswathi vandana and lightening of the lamp by the dignitaries.
- This program has covered students of Bachelors program and faculty of the college.
- **The summery of the lecture are as follows:**
 - This lecture was initiated by indicating the connotation of the terminologies-IP and IPR
 - The legal basis of IPR and then various forms were discussed. The ethos and process vs. product patents, trades secrete protection, designs, copyrights etc. And the basis of the expenditure of various IPR.
 - Problems were discussed the types of patents such as biotech patent, plant patent, utility patent, software patent, business method patent, nano-tech patent, design pattern were elaborated.
 - The wealth of patents in developed countries like USA, Japan and Europe are projected and compared with Indian status indicating poorness with the wealth of IP in India, a focus of the important of commercialization of patents was projected in engineering and technology.

Outcome of the event:

- **The outcome of the program is as follows:**
 - Students will be able to have an idea on patents in engineering and technology.
 - Students will gain knowledge on types of patent, patent rules, various copy rights.
 - Students will have an insight on wealth produced using patents of other countries in comparison to India.

ABOUT INSTITUTE:

Trinity College of Engineering & Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. Over the years since it was established, there has been dynamic progress at Trinity in all academic and research activities, and a parallel improvement in facilities and infrastructure, to keep it on par with the best institutions in India.

OBJECTIVE OF THE PROGRAMME:

To develop an understanding of scientific and medical advancement enabling to get an increasing control over famines, diseases and ultimately death and the imbalance thus created between death rate and birth rate. In India, population explosion is the result of high birth rate. High birth rate reduces health and welfare of women. Frequent pregnancy without having a gap is hazardous to the health of the mother and the child. This leads to high death rate among women in the reproductive age due to early marriage. Population explosion refers to the number of people that live in an area. It is a major issue for developing countries. Also, the government is not taking proper measures to control this problem. Besides, it generates many issues in the country that cause many problems for people. The major factors that are responsible for population explosion are illiteracy, reduced mortality, increased birth rate, and an increase in life expectancy.

Who can attend?

Students from the Undergraduate, post-graduate, and Faculties of various institutions

PROGRAMME REPORT

Programme name	A one day seminar on "Research Analysis on Population Explosion".
Resource person	M.Rajitha PGT, MJPTWREIS, Karimnagar.
Date of activity	11-11-2019
Organized by	TRINITY COLLEGE OF ENGINEERING & TECHNOLOGY, KARIMNAGAR.
Venue	Seminar Hall, Block II.

OBJECTIVE OF THE PROGRAMME:

To develop an understanding of scientific and medical advancement enabling to get an increasing control over famines, diseases and ultimately death and the imbalance thus created between death rate and birth rate. In India, population explosion is the result of high birth rate. High birth rate reduces health and welfare of women. Frequent pregnancy without having a gap is hazardous to the health of the mother and the child. This leads to high death rate among women in the reproductive age due to early marriage. Population explosion refers to the number of people that live in an area. It is a major issue for developing countries. Also, the government is not taking proper measures to control this problem. Besides, it generates many issues in the country that cause many problems for people. The major factors that are responsible for population explosion are illiteracy, reduced mortality, increased birth rate, and an increase in life expectancy.

TOPIC COVERED:

- Cover a broad range of subjects including health, economics, geography and demography.
- The study of populations across such themes as ageing, social policy, fertility, mortality, migration, families and households, health equity, labor force and income and ethnicity.

OUTCOME OF THE PROGRAMME:

- Students will know the unemployment, excessive dependency, insufficient income rate, insecurities, loss of jobs, development failures, and social problems by the population.
- Students will gain the knowledge of Rapid population growth leads to environmental change.

ABOUT INSTITUTE:

Trinity College of Engineering & Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. Over the years since it was established, there has been dynamic progress at Trinity in all academic and research activities, and a parallel improvement in facilities and infrastructure, to keep it on par with the best institutions in India.

The Major Objectives of the Entrepreneurship are:

The main objective of the program is this Entrepreneurship skill development of education training and skill building through this programmed the main aim to promote Entrepreneurship as an Alternate career choice and enable monitoring support through the journey potential and early stage.

Topic covered:

- The skill building though this programmed main aim to promote Entrepreneurship
- Entrepreneurship education and monitoring support to beneficiaries from skilling.
- Entrepreneurship skill development of education training.

ABOUT INSTITUTE:

Trinity College of Engineering & Technology, Karimnagar has been structured to take head on the changing trends of technology. The idea of setting up the college emerged when no other college could cater to the needs of a student in his/her endeavor to acquire wholesome education. The very strength of Trinity lies in its principles of providing the right learning environment for the student who does not have to compromise throughout the learning process of becoming global citizen. Over the years since it was established, there has been dynamic progress at Trinity in all academic and research activities, and a parallel improvement in facilities and infrastructure, to keep it on par with the best institutions in India.

OBJECTIVE OF THE PROGRAMME:

Artificial intelligence is a technology of making a computer or software intelligent enough to think like a human brain. So that machine can do human tasks more effectively and find better solution than human minds. Hence machines are mainly used for repetitive and complex human tasks. Artificial Intelligence also helps machines to think, learn and improve their work performance, just like human beings.

Who can attend?

Students from the Undergraduate, postgraduate, and Faculties of various institutions
